### Remark

Full text of H- and EUH-statements: see section 16.Full text of H-phrases: see section 16.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

#### **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

#### Following inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

#### Following skin contact

Remove contaminated, saturated clothing immediately. After contact with skin, wash immediately with plenty of water and soap. Do not use solvents or thinners.

#### After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

#### Following ingestion

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

#### Self-protection of the first aider

First aider: Pay attention to self-protection!

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Symptoms

In all cases of doubt, or when symptoms persist, seek medical advice.

#### 4.3 Indication of any immediate medical attention and special treatment needed

First Aid, decontamination, treatment of symptoms.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

## Suitable extinguishing media

alcohol resistant foam, Carbon dioxide (CO2), Powder, spray mist, (water)

#### Unsuitable extinguishing media

Strong water jet

#### 5.2 Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

## 5.3 Advice for firefighters

Provide a conveniently located respiratory protective device. Cool closed containers that are near the source of the fire. Do not allow water used to extinguish fire to enter drains, ground or waterways.

#### **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

## Ventilate affected area. Do not breathe vapours.

## 6.2 Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

4130000	Mould stop
Version 2.3	Revision date 08-Jul-2021

#### 6.3 Methods and material for containment and cleaning up

#### For containment

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13).

#### For cleaning up

Clean using cleansing agents. Do not use solvents.

## 6.4 Reference to other sections

Safe handling: see section 7 Personal protection equipment: refer to section 8 Disposal: see section 13

## **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

#### Advices on safe handling

Avoid contact with skin, eyes and clothes. Avoid respiration of swarf. Personal protection equipment: see section 8 Do not empty containers with pressure - no pressure vessel! Always keep in containers that correspond to the material of the original container. Follow the legal protection and safety regulations.

#### Advices on general occupational hygiene

When using do not eat, drink or smoke.

#### 7.2 Conditions for safe storage, including any incompatibilities

#### Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

#### Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

#### Further information on storage conditions

Keep container tightly closed. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

#### 7.3 Specific end use(s)

Observe technical data sheet.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### **Occupational exposure limit values**

CAS No.	Substance name	Source	Long-term /short-term (Spitzenbegrenzung)
64-17-5	ethanol; ethyl alcohol	WEL	1.920 / - ( - ) mg/m³

#### Additional information

Long-term: Long-term occupational exposure limit value short-term: short-term occupational exposure limit value

#### **Biological limit values**

No data available

#### \* <u>DNEL worker</u>

	CAS No.	Substance name	DNEL type	DNEL value
*	64-17-5	ethanol; ethyl alcohol	Acute - inhalation, local effects	1.900 mg/m³
*	64-17-5	ethanol; ethyl alcohol	Long-term - dermal, systemic effects	343 mg/kg bw
*	64-17-5	ethanol; ethyl alcohol	Long-term – inhalation, systemic effects	950 mg/m³

4130000 Mould stop Version 2.3 Revision date 08-Jul-2021

	CAS No.	Substance name	DNEL type	DNEL value
*	64-17-5	ethanol; ethyl alcohol	Acute - inhalation, local effects	950 mg/m³
*	64-17-5	ethanol; ethyl alcohol	Long-term - dermal, systemic effects	206 mg/kg bw
*	64-17-5	ethanol; ethyl alcohol	Long-term – inhalation, systemic effects	114 mg/m³
*	64-17-5	ethanol; ethyl alcohol	Long-term - oral, systemic effects	87 mg/kg bw

#### \* PNEC

	CAS No.	Substance name	PNEC type	PNEC Value
*	64-17-5	ethanol; ethyl alcohol	aquatic, freshwater	0,96 mg/L
*	64-17-5	ethanol; ethyl alcohol	aquatic, marine water	0,79 mg/L
*	64-17-5	ethanol; ethyl alcohol	sediment, freshwater	3,6 mg/kg
*	64-17-5	ethanol; ethyl alcohol	soil	0,63 mg/kg
*	64-17-5	ethanol; ethyl alcohol	sewage treatment plant	580 mg/L

#### 8.2 Exposure controls

Provide good ventilation. This can be achieved with local or room suction.

Personal protection equipment

#### **Respiratory protection**

In case of inadequate ventilation wear respiratory protection.

#### Hand protection

Suitable material: NBR (Nitrile rubber) Thickness of the glove material >= 0,4 mm Breakthrough time >= 480 min

For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves. Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin.

Recommended glove articles: EN ISO 374

#### Skin protection

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

#### Eye/face protection

Eye glasses with side protection

#### **Body protection**

When handling with chemical substances, protective clothing with CE-labels including the four control digits must be worn.

### Environmental exposure controls

Do not allow to enter into surface water or drains.

#### **SECTION 9: Physical and chemical properties**

## not applicable

#### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No specific test data related to reactivity available for this product or its ingredients.

#### 10.2 Chemical stability

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7.

#### 10.3 Possibility of hazardous reactions

Keep away from strong acids, strong bases and strong oxidizing agents to avoid exothermic reactions.

#### **10.4 Conditions to avoid**

Stable when applying the recommended regulations for storage and handling. Further information on correct storage: refer to section 7. Hazardous decomposition byproducts may form with exposure to high temperatures.

#### **10.5 Incompatible materials**

No further relevant information available.

## **10.6 Hazardous decomposition products**

Hazardous decomposition byproducts may form with exposure to high temperatures, e.g.: Carbon dioxide (CO2), Carbon monoxide, smoke.

### **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

#### Acute toxicity

Based on available data, the classification criteria are not met.

#### ethanol; ethyl alcohol

LD50: oral (Rat): = 10.470 mg/kg

LD50: dermal (Rabbit): > 2.000 mg/kg

\* LC50: inhalative (Rat): = 124,7 mg/L (4 h)

LD50: oral (Rat): = 10.470 mg/kg

- LD50: dermal (Rabbit): > 2.000 mg/kg
- \* LC50: inhalative (Rat): = 124,7 mg/L (4 h)

## Skin corrosion/irritation

Based on available data, the classification criteria are not met.

#### Serious eye damage/eye irritation

Based on available data, the classification criteria are not met.

## Respiratory or skin sensitisation

Based on available data, the classification criteria are not met.

### CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Based on available data, the classification criteria are not met.

#### STOT-single exposure

Based on available data, the classification criteria are not met.

### STOT-repeated exposure

Based on available data, the classification criteria are not met.

#### Aspiration hazard

Based on available data, the classification criteria are not met.

#### Practical experience/human evidence

Inhaling of solvent components above the MWC-value can lead to health damage, e.g. irritation of the mucous membrane and respiratory organs, as well as damage to the liver, kidneys and the central nerve system. Indications for this are: Headache, Dizziness, fatigue, amyosthenia, Dizziness, in serious cases: unconsciousness. Solvents may cause some of the aforementioned effects through skin resorption. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and/or absorption through skin. Splashing may cause eye irritation and reversible damage.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

Based on available data, the classification criteria are not met.

12.2 Persistence and degradability

No information available.

## 12.3 Bioaccumulative potential

- \* Partition coefficient: n-octanol/water = -0,35
- 12.4 Mobility in soil

No information available.

#### 12.5 Results of PBT and vPvB assessment

The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII.

#### 12.6 Other adverse effects

No information available.

## **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

#### Product/Packaging disposal

Do not empty into drains; dispose of this material and its container in a safe way. Waste disposal according to directive 2008/98/EC, covering waste and dangerous waste.

#### Waste codes/waste designations according to EWC/AVV

070699 - Wastes not otherwise specified

#### Other disposal recommendations

Non-contaminated packages may be recycled. Vessels not properly emptied are special waste.

#### **SECTION 14: Transport information**

#### 14.1 UN number

not applicable

#### 14.2 UN proper shipping name
