

The new Clean Dream

Powerful deep cleaning —
intelligently activated by oxygen

AURO

Passion for natural paints

INTERIOR CARE

AURO 2K Parquet & Floorboard Cleaner – Starter Kit No. 640

Bring wooden floors beautifully back to life. Developed for untreated and oiled parquet and floorboards, this advanced two-component system removes everyday grime, food residues and even stubborn hard-wax oil build-up — all without compromising the integrity of the surface.

As the two components combine during spraying, they generate active oxygen. This natural reaction penetrates deep into the wood pores, breaking down organic dirt at its source. The biodegradable formulation leaves no harsh chemical odours and allows floors to be used again without delay.

Deeply effective. Exceptionally gentle.

- Complete starter kit with precision dual-chamber sprayer and 400 ml each of Component 1 & 2
- Thorough yet surface-safe cleaning for parquet and floorboards
- No grain raising or surface roughening
- Biodegradable, vegan and odour-free
- The ideal preparation prior to oiling or maintenance treatments

**2K Parquet & Floorboard Cleaner - Replacement set
2x2 400ml No. 640 01**

**2K Parquet & Floorboard Cleaner - set 2x5 Liter
No. 640 14**

Also available as convenient refill packs and professional 5L containers — ideal for larger areas and ongoing maintenance.

EXTERIOR CARE

AURO 2K Exterior Wood Cleaner – Starter Kit No. 641

Refresh outdoor timber with confidence. Suitable for decking, garden furniture, fencing and WPC surfaces, this innovative 2-component cleaner delivers deep, even cleaning without raising the grain or damaging the wood structure.

Upon application, the components activate instantly, releasing active oxygen that penetrates the surface and breaks down organic deposits thoroughly and sustainably. Once cleaned, surfaces are ready for immediate use and perfectly prepared for oil or stain application.

Powerful where required. Gentle where it matters.

- Complete starter kit with precision dual-chamber sprayer and 400 ml each of Component 1 & 2
- Effective yet careful cleaning for all exterior timber surfaces
- Helps preserve smoothness and extend service life
- Vegan, biodegradable and free from intrusive odours
- Ideal as a preparatory deep clean before oiling or staining

2K Exterior Wood Cleaner - Replacement set 2x2 400ml No. 641 01

2K Exterior Wood Cleaner set 2x5 Liter No. 641 14

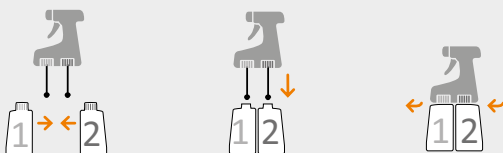

Also available as convenient refill packs and professional 5L containers — ideal for larger areas and ongoing maintenance.

Simple application. Impressive results.

The 2K system — step by step

01 Remove loose dirt and sweep the surface clean

02 Attach the sprayer securely to both components and ensure bottles are tightly closed.

03 Spray evenly and work in using a suitable brush or cleaning pad.

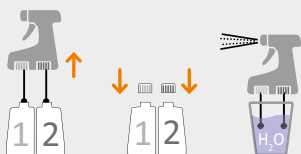

04 Allow to act, then remove loosened dirt completely. Rinse with clean water.

5-15 Min

05 Remove the sprayer, reseal bottles firmly and rinse the sprayer thoroughly with clean water.

Application

Please follow the instructions on the product label and consult the relevant material safety data sheets at www.auro.de/en.

Naturally enhancing wood

Oiling is the most authentic and time-honoured way to protect wood. Whether solid timber, parquet or traditional floorboards, oiled surfaces offer reliable protection against moisture and soiling while retaining their natural warmth and character. Properly treated wood not only looks refined — it feels natural underfoot and contributes to a healthy indoor environment. At the same time, durability and resistance to everyday wear are significantly enhanced.

Our recommended system for interior wooden floors:

FILL & REFINE

Wood Fill & Fix No. 528*

A dependable solution for repairing joints, cracks and minor imperfections. Mixed with fine sanding dust from the original wood, it blends seamlessly in colour and texture for a harmonious, natural finish.

PROTECT & STRENGTHEN

Hard oil DuraQuick No. 529*

A transparent, water-based hard oil for wooden floors and heavily used interior surfaces. The ecological formulation provides a refined silk-matt finish with rapid drying and excellent everyday resilience. Slip resistance class R10.

MAINTAIN & PRESERVE

Floor Care Emulsion No. 431*

A gentle maintenance concentrate for floors treated with AURO oils or waxes. Regular use preserves both beauty and durability while remaining highly economical.

** For interior wooden floors only. For sustainable exterior protection, we recommend Decking oil No. 110 and COLOURS FOR LIFE Wood stain No. 560.*
